

Stop Belt & Tail Pulley Damage

THE INDUSTRY'S BEST SOLUTION TO PROTECTING TAIL PULLEYS & BELTS.

- Quick and easy install *within minutes*.
- Maintenance-free roller design *won't catch belt splice*.
- Low profile design *accommodates all conveyor frame configurations*.
- One model covers *all major belt widths 18" to 96"*; 72" and 96" will have optional flare extensions at additional price.
- Typically clears 1/8" and above of aggregates and/or material, and any rogue tramp iron, with *self-aligning* properties.
- Unique *patented* device never needs adjusting - trust *only* the original Grizzly Rolling Rock Plow!

Currently Seeking US and International Dealer Reps and OEM Manufacturers for Partnership.

ITS UNIVERSAL DESIGN AND ADJUSTABILITY MAKES OUR PLOW COMPATIBLE WITH ALL CONVEYOR CONFIGURATIONS ON THE MARKET.
