**DEMI GRIZZLY TUFF
WORK BENCH**

WHO WE ARE

FROM HUMBLE BEGINNINGS

Our story began the summer of 2012, when our owners Tim and Martha Holmberg established Dakota Equipment Manufacturing Inc. ("DEMI"). Tim and Martha served the South West Aggregate and Mining community since 1989, however looking to broaden their business into the northern territory.

We began business out of a small shop in rural Cresbard, South Dakota and worked tirelessly to achieve where we are today. A few years later, DEMI Equipment would expand into a larger shop located in the industrial park of Aberdeen, South Dakota. We also continue to grow and expand our business into the southwest territory by running a fleet of service trucks based out of Phoenix, Arizona.

TURNING IDEAS INTO OPPORTUNITIES

DEMI Equipment offers a wide range of services from equipment maintenance, replacement parts & wear media installation, equipment design & plant layout, equipment rebuilds, custom turn-key crushing & screening operations tailored to your specifications. Most recently, we've started a product line of steel fabricated shop equipment.

Forward thinking is what powers DEMI Equipment full steam ahead towards our ultimate goal of taking care of our customers for life. At DEMI Equipment one of our main objectives are to promote a close bond with our customers by always including them into our manufacturing process and providing an ongoing open forum of interactive discussion during the entire life of the equipment.

It is with this type of attention to detail, and never ending commitment to our customers that we feel makes DEMI Equipment a competitive leader in manufacturing.

We look forward to working together soon!

GRIZZLY TUFF WORK BENCH

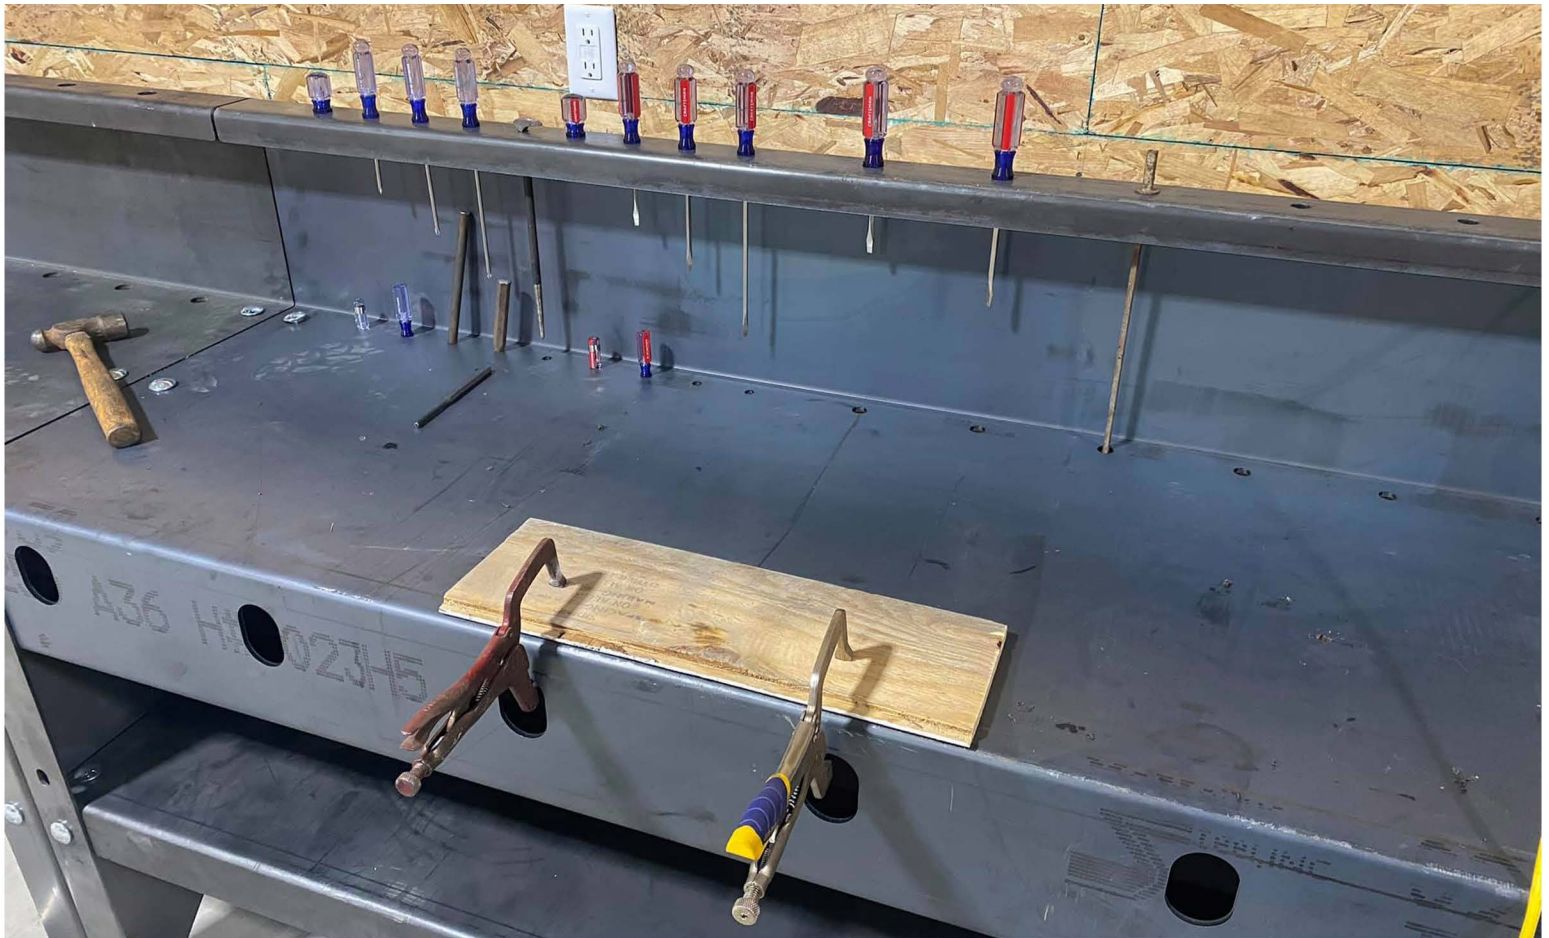

THE NEXT TOOL IN YOUR SHOP

Our benches are laser cut & CNC formed to provide you a product that is ready to use right away. **No Welding, No Drilling, No Cutting!**

You can create your own custom look or length with our design's bolt-together ingenuity! Each bench can stand alone or be bolted together, especially our corner bench design!

The Grizzly Tuff Work Bench are shipped straight to you and they can be assembled in under just one hour. Assembly just takes the use of your impact tools & the help of a friend.

We provide the bolts!

FEATURES

Tool Storage Slots

Clamp Holes

Mid-Height Shelf

+ Personal Customizations
Upon Request

WORK BENCH CONFIGURATION

STANDARD DIMENSIONS

LENGTHS

48"-120"

DEPTHS

24"

30"

*Custom options are available per request.

HEIGHTS

WORK SURFACE: 36"

BACKSPLASH: 12"

BENCH THICKNESS

We offer 3 different options depending on the type of work you will be using your bench for: **1/8"**, **3/16"**, & **1/4"**.

Our thickness help guide:

1/8" - residential, home garage, DIY projects, tinkering, gardening.

3/16" - general use, farm shop, drilling, sawing, assembly, home improvement, woodworking, vehicle maintenance, welding. *(most popular!)*

1/4" - commercial shop, engine rebuilds, manufacturing, mechanics, fabrication, construction.

BENCH THICKNESS

Want the cost savings of a 1/8" thick workbench, but want the work surface to be as heavy duty as the 1/4"?

Ask us about upgrading your benchtop!

Because of our bolt-together design, our thicknesses can be interchanged per your needs!

ADD-ONS

YOUR BENCH, YOUR WAY.

As a custom manufacturing shop, we're not afraid of any challenge. We're happy to create a product that you will love and use every day.

We've done many adjustments for customers already such as a custom welding benchtop, integrated toolbox design, additional benchtop height, removal of backsplash piece, additional workspace depth, no tool storage holes, caster wheels, etc.

A few examples of our most popular add-ons are shown below.

PAINT

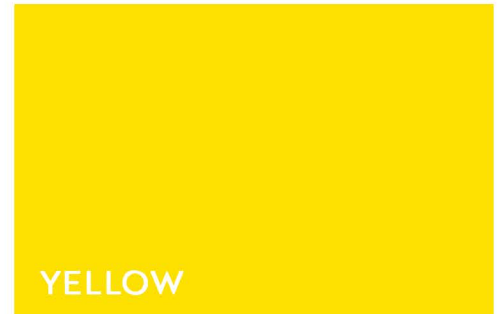

INDUSTRIAL FINISH

For an additional charge, your bench and pegboard can be painted to match any color. Finished in glossy, matte, or metallic. We've got you covered!

Our paint is an heavy-duty industrial coating that aids in appearance, customization, and light cleaning.

Locations such as the work surface can taped off, to be left as bare steel, per requested by the customer.

POPULAR COLORS

PAINT DISCLAIMER: Grizzly Tuff Work Benches and Pegboards are finished in a third-party paint booth with no affiliation to DEMI. DEMI makes no warranty or guarantee regarding the quality or sustainability of the paint condition when the customer receives said finished product. DEMI does not cover any problems that result from poor material handling by a shipper resulting in nicks, gouges, scratches, etc. The paint finish is a heavy-duty industrial coating that ONLY aids in appearance, customization, and light cleaning.
